

## **A message from the Action Group developing Special Needs Christian Care Services in Lincolnshire**

Are you a parent/carer of a person with a learning and/or physical disability and searching for suitable long term accommodation for them away from the family home? In need of assistance to help sustain your ability to keep the cared for person at home? Or do you know someone in this situation? If so, then the following may be of interest to you.....

We are a group of parents local to Lincoln that are all too aware of the difficulty of meeting the long-term care needs of their offspring as it becomes increasingly difficult for them to remain at home.

We have had a very positive experience with the national Christian charity "Prospects" supporting us over the last 10 years, as we have organised monthly church services for adults with special needs. Prospects has now merged with another Christian charity "Livability". Both "Prospects" and "Livability" provide care services in many parts of the country but not Lincolnshire. We have asked them to consider bringing their supported living service and/or domiciliary care service to the Lincoln area.

The local Action Group are keen for carers to get in touch with details of what type and level of support might be of interest. Then the Livability organisation will formulate an offer in the light of local requirements.

Our objective is that Livability will provide a residential supported living service (probably in the Lincoln area) and/or a domiciliary care service that:

- parents/carers can trust to be of good quality
- will be sympathetic to and support any faith background that the client may have.

if you would like to know more then please get in touch and let us know what services could meet your needs (and/or pass this on to parents/carers who you believe would be interested).

Rev'd Keith Tomlin

(Chair of the Action Group developing special needs Christian Care Services in Lincolnshire)
