Circumstances can change your life. In the year 2000 a car accident changed many things for Larry. What are we to learn from the circumstances we find ourselves? In Larry's case, what we might call bad circumstances turned into a Blessing! Do you understand as a child of God just how our Father sees us as His children. Larry shares in song, (including his original compositions from his first CD "ABIDE", *Abide By His Side* and *Who Am I* and his New CD, "GRACE", *Through the Eyes of Grace*, *Touched By God*, *God's Not Impressed*, *Thank You for the Process*, and *It's a Brand New Day*) and message what God did in his life through his frustrations, limitations, and circumstances. Larry considers himself blessed through what God is revealing to him about His Grace and the practice of Abiding in Him. You will hopefully come away with a new understanding and perspective about the relationship God wants with you through Christ.
